Bringing Women Home to Their Lives

Pam Neff Photography

Oak Haven Farms in Sorrento, FL

Work From Home • No Selling No Inventory • No Party Plan • No Risk

After 3 & 1/2 years of fertility treatments and then blessed with the gift of twin girls, I was bound and determined to be home with them to enjoy every little moment. With that came the financial stress of cutting back, coupon shopping and praying at the end of the month that we had made ends meet. Which was a far cry from the plentiful days of medical sales. I missed having the freedom of money but was not willing to go back to the stress. I knew I needed something flexible and that would work around my girls' nap schedules.

I went out to California to visit my sister and she introduced me to Mom's Making Six Figures. It is a group of woman who all support each other to do the impossible, be the mom you want to be and

still work hard on your own schedule. It sounded too good to be true. The more I looked into it the more I was intrigued, so I decided to give it a try and it has exceeded my expectations.

We are partnered with a US based manufacturing company of products that are safer for the home and the environment at a price people can afford. My job is to just simply help people. Educating people on the sneaky toxins in the home and then simply providing a solution. I do not sell anything, I do not have a inventory or have a huge overhead. It really has become the perfect fit for my family. If you are interested in learning more feel free to go to our website at www.momsmakingsixfigures.com
